

# Konekt Training

Local Knowledge. National Strength.

Konekt Training offers a range of vocational courses across Australia that combine effective learning methodologies with industry best practices, and leverage the extensive experience of Konekt's practising health professionals.

**Blended Learning** – courses may be delivered at your site, online or at one of our 40+ branches across Australia for convenience and improved learning outcomes.

**Adaptive Learning Technologies** – the latest in online learning technologies are utilised that automatically adjust according to participants' progress for effective tailored learning.

**Industry Best Practice** – Konekt's quality assurance managers, technical managers and trainers ensure training materials represent industry best practice, and conform to statutory requirements.

**Practising Health Professionals** – Konekt are Australia's largest provider of workplace health solutions employing over 400 allied health professionals including physiotherapists, occupational therapists, ergonomic experts, exercise physiologists, rehabilitation counsellors and psychologists.

Konekt Trainers are practising health professionals who draw on their experience and exposure to a variety of customers ranging from small businesses to large enterprise, and local, state and federal government agencies.

The following qualifications and non-accredited vocational courses are available through Konekt's two Registered Training Organisations (RTO). Both RTOs have been operating for over 12 years and have become leaders in their respective markets.

Innovative Training and Recruitment (ITR #40206) offers qualifications in injury management, computing, workplace health and safety in the South Australian market.

SRC Solutions (#88200) delivers workplace training in the Australian Capital Territory to private and government organisations, offering a range of education opportunities from risk management to workplace health and safety.

## Qualifications

- **FNS30215 Certificate III in Personal Injury Management**
- **FNS42115 Certificate IV in Personal Injury Management**

Both personal injury management qualifications provide participants with the skills required to perform roles in compensation claims management and return-to-work case management streams. Topics include negotiation skills, managing claims, problem solving and how to develop effective workplace relationships.

- **BSB41415 Certificate IV in Workplace Health and Safety**

This qualification is the entry point of formal study to acquire a role such as a Health and Safety Officer or Risk Officer in a variety of organisations.

- **ICT10115 Certificate I in Information, Digital Media and Technology**

This qualification develops practical, job-orientated computer skills for using common software applications including Microsoft Word, Outlook and Excel.

## Vocational Courses

- **Return to Work Coordinator**
- **Health and Safety Representative**

These vocational courses meet the relevant state and Commonwealth employment regulations, as well as the Federal Health and Safety Act (2011). Both training courses are supported by refresher and skills extension programs to continually drive best-practice workplace safety and injury recovery management.

- **Manual Handling**

The manual handling course is a preventative program designed to build capacity within your workforce to self-manage risk and complete manual tasks safely.

- **Comprehensive Ergonomic Assessment**

This training program embeds the principles of safe ergonomic practices into any work environment and teaches participants how to adjust their workstations in line with ergonomic practices.

- **Computer Workshops**

This series of four workshops train students in Microsoft Word, Excel and Outlook as well as general computer setup and effective internet usage. These workshops are facilitator led and come complete with information handouts and workbooks.

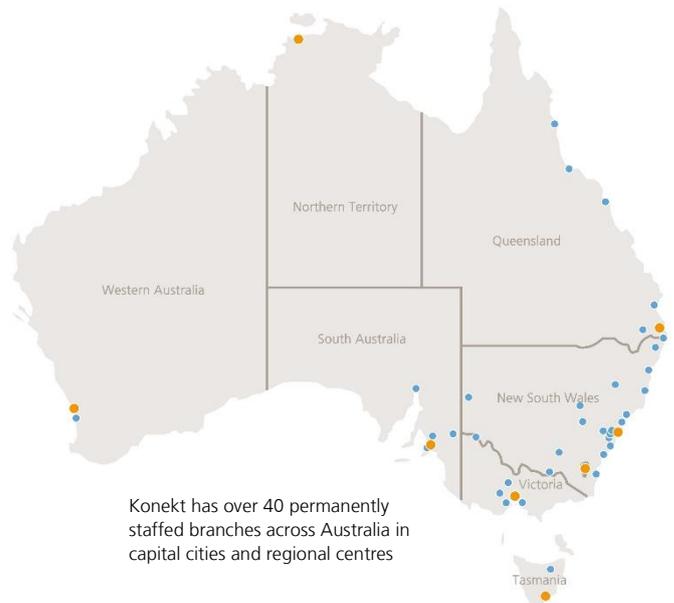

## Online Courses

There are a range of online-only programs available including Privacy Training, Equal Opportunity Employment, Workplace Health and Safety, Safe Travel and Working Alone.

A variety of reports are available for customers to measure the progress, status and success of the learning cohort.
